Dear Mr. Lewis,

You refer to an assassination film you saw on ABC. I think you meant A&E. I did not see it. But any film that includes the shots is not authentic, a fake or a reenactment.

Sorry I can't be of help.

No smoking gun there and don't expect one.

The crime was never investigated officially and wasn't intended to be.

So there are no leads to be followed.

The theories can be made very attractive but they are at best ubproven.

Best wishes,

Harold Weisberg
